Candidates are requito the scenario. Candidates are required to tonode	answer all questions.	
Syllabus T       G1       In 30m       mathematics to a real-world scenario. Candidates are required to answer all questions.       Chapter 10.9         Science       G3       2h       Section A : Multiple Choice Section B & C: Structured Questions       1. The Scientific Endeavour and Lab Knowledge         Science       G3       2h       Section A : Multiple Choice Section B & C: Structured Questions       1. The Scientific Endeavour and Lab Knowledge         Science       G3       2h       Section A : Multiple Choice Section B & C: Structured Questions       1. The Scientific Endeavour and Lab Knowledge         Science       Science Syllabus A       G2       2h       Section A : Multiple Choice Section B & C: Structured Questions       1. The Scientific Endeavour and Lab Knowledge         Science Syllabus A       G2       2h       Section A : Multiple Choice Section B & C : Structured Questions       1. The Scientific Endeavour and Lab Knowledge         Science Syllabus A       G1       1h 30m       Section A : Multiple Choice Section B & C : Structured Questions       5. Ray Model of Light 6. Model of Matter by Its Physical Properties 3. Exploring Diversity of Matter Using Separation Techniques 5. Ray Model of Light 6. Model of Matter - Atoms and Molecules         Science Syllabus A       G1       1h 30m       Section A : Multiple Choice Section B & C : Structured Questions       5. Ray Model of Light 6. Model of Matter - Atoms and Molecules         Science Syllabus T <td< td=""><td></td><td></td></td<>		
Science       G3       A       Participation       The Scientific Endeavour and Lab Knowledge         Science       G3       2h       Section A : Multiple Choice       2. Exploring Diversity of Matter by its Physical Properties         Science       Section B & C: Structured Questions       4. Exploring Diversity of Matter Using Separation Techniques         Science       Section A : Multiple Choice       5. Ray Model of Light         6. Model of Matter - The Particulate Nature of Matter       6. Model of Matter - Atoms and Molecules         Science       Section A : Multiple Choice       2. Exploring Diversity of Matter Using Separation Techniques         Science       Section A : Multiple Choice       8. Model of Matter - Atoms and Molecules         Science       2h       Section A : Multiple Choice       2. Exploring Diversity of Matter Using Separation Techniques         Science       2h       Section A : Multiple Choice       3. Exploring Diversity of Matter Using Separation Techniques         Science       2h       Section A : Multiple Choice       5. Ray Model of Light       6. Model of Matter - Atoms and Molecules         Science       2h       Section B & C : Structured Questions       5. Ray Model of Light       6. Model of Matter - Atoms and Molecules         Science       Syllabus A       G1       1h 30m       Section A : Multiple Choice       5. Ray Model of Light		
Science       G3       2h       Section A : Multiple Choice Section B & C: Structured Questions       1. The Scientific Endeavour and Lab Knowledge 2. Exploring Diversity of Matter by its Physical Properties 3. Exploring Diversity of Matter by its Chemical Composition 4. Exploring Diversity of Matter Using Separation Techniques 5. Ray Model of Light 6. Model of Cells – The Basic Units of Life 7. Model of Matter – Atoms and Molecules         Science Syllabus A       G2       2h       Section A : Multiple Choice Section B & C : Structured Questions       1. The Scientific Endeavour and Lab Knowledge 2. Exploring Diversity of Matter Ds its Chemical Composition 4. Exploring Diversity of Matter by its Chemical Composition 4. Exploring Diversity of Matter Using Separation Techniques 5. Ray Model of Light 6. Model of Cells – The Basic Units of Life 7. Model of Matter – The Particulate Nature of Matter 8. Model of Cells – The Basic Units of Life 7. Model of Matter – The Particulate Nature of Matter 8. Model of Cells – The Basic Units of Life 7. Model of Matter – Atoms and Molecules 5. Ray Model of Light 6. Model of Cells – The Basic Units of Life 7. Model of Matter – Atoms and Molecules 6. Topic 1: Laboratory Measurements and Procedures 6. Topic 6: Matter 8. Topic 6: Matter 8. Topic 7: Water Pollution 8. Topic 9: Cells 8. Fipic 10: Getting Energy and Nutrients from Food		
Science       G3       2h       Section A : Multiple Choice Section B & C: Structured Questions       3. Exploring Diversity of Matter by its Chemical Composition 4. Exploring Diversity of Matter Using Separation Techniques 5. Ray Model of Cells - The Basic Units of Life 7. Model of Cells - The Particulate Nature of Matter 8. Model of Matter - The Particulate Nature of Matter 8. Model of Matter - Atoms and Molecules         Science Syllabus A       G2       2h       Section A : Multiple Choice Section B & C : Structured Questions       1. The Scientific Endeavour and Lab Knowledge 2. Exploring Diversity of Matter by its Physical Properties 3. Exploring Diversity of Matter by its Chemical Composition 4. Exploring Diversity of Matter by its Chemical Composition 4. Exploring Diversity of Matter Using Separation Techniques 5. Ray Model of Light 6. Model of Cells - The Basic Units of Life 7. Model of Cells - The Basic Units of Life 7. Model of Cells - The Basic Units of Life 7. Model of Matter - Atoms and Molecules         Science Syllabus A       G1       1h 30m       Section A : Multiple Choice Section B & C : Structured Questions       5. Ray Model of Cells - The Basic Units of Life 7. Model of Matter - Atoms and Molecules         Science Syllabus T       G1       1h 30m       Section A : Multiple Choice Section B : Structured Questions       • Topic 1: Laboratory Measurements and Procedures • Topic 6: Matter         * Topic 1: Laboratory Measurements and Procedures • Topic 6: Matter       • Topic 7: Water Pollution • Topic 8: Air Pollution • Topic 8: Air Pollution • Topic 9: Cells • Topic 10: Getting Energy and Nutrients from Food	1. The Scientific Endeavour and Lab Knowledge	
Science       G3       2h       Section A : Multiple Choice Section B & C: Structured Questions       4. Exploring Diversity of Matter Using Separation Techniques         Science       Science       Model of Cells – The Basic Units of Life 7. Model of Matter – The Particulate Nature of Matter         Science       Science       Section A : Multiple Choice       1. The Scientific Endeavour and Lab Knowledge         Science       Science Syllabus A       G2       2h       Section A : Multiple Choice Section B & C : Structured Questions       5. Ray Model of Light 6. Model of Matter – Atoms and Molecules         Science       Science Syllabus A       G2       Ph       Section A : Multiple Choice Section B & C : Structured Questions       5. Ray Model of Light 6. Model of Cells – The Basic Units of Life 7. Model of Matter Using Separation Techniques 5. Ray Model of Light 6. Model of Cells – The Basic Units of Life 7. Model of Matter – Atoms and Molecules         Science       Science       Section A : Multiple Choice Section B & C : Structured Questions       6. The Basic Units of Life 7. Model of Matter – Atoms and Molecules         Science       Science       Section B & C : Structured Questions       6. The Basic Units of Life 7. Model of Matter – Atoms and Molecules         Science       Science       Section B & C : Structured Questions       6. The Dasic Units of Matter – Atoms and Procedures         Science       1h 30m       Section B : Structured Questions       6. Topic 6 : Matter		
Science       G1       C1       Section B & C: Structured Questions       5. Ray Model of Light         6. Model of Cells – The Basic Units of Life       7. Model of Matter – Atoms and Molecules         8. Model of Matter – Atoms and Molecules       1. The Scientific Endeavour and Lab Knowledge         2. Exploring Diversity of Matter by its Physical Properties       3. Exploring Diversity of Matter by its Physical Properties         Science       Section A : Multiple Choice       5. Ray Model of Light         Syllabus A       G2       2h       Section A : Multiple Choice         Science       Section B & C : Structured Questions       5. Ray Model of Light         6       Model of Cells – The Basic Units of Life         7. Model of Cells – The Basic Units of Life         7. Model of Matter – Atoms and Molecules         8       Model of Cells – The Basic Units of Life         7. Model of Matter – Atoms and Molecules         8       Model of Matter – Atoms and Molecules         8       Model of Matter – Atoms and Molecules         8       Forpic 1: Laboratory Measurements and Procedures         9       Forpic 6: Matter         8       Forpic 8: Air Pollution         9       Forpic 1: Caboratory Measurements and Procedures         9       Forpic 8: Air Pollution         9       Forpic 8	Section A : Multiple Choice	
Science       Science       2h       Section A : Multiple Choice       5. Ray Model of Matter - The Particulate Nature of Matter 8. Model of Matter - Atoms and Molecules         Science       Syllabus A       G2       2h       Section A : Multiple Choice       5. Ray Model of Light 6. Model of Matter by its Chemical Composition 4. Exploring Diversity of Matter by its Chemical Compositical Compositer by its Chemical Comis and Molecules		
Science Syllabus AG22hSection A : Multiple Choice Section B & C : Structured Questions8. Model of Matter – Atoms and MoleculesScience Syllabus AG11h 30mSection A : Multiple Choice Section B & C : Structured Questions1. The Scientific Endeavour and Lab Knowledge 2. Exploring Diversity of Matter by Its Physical Properties 3. Exploring Diversity of Matter by Its Chemical Composition 4. Exploring Diversity of Matter Using Separation Techniques 5.
